Explorer Care Registration Instructions Returning & Preschool Families

Step 1: Use the following link to access Explorer Care registration through Kangarootime: https://enroll.kangarootime.com/inquiry/91EE4912C07E5718.

We recommend using a desktop computer, but it will work on a mobile phone as well.

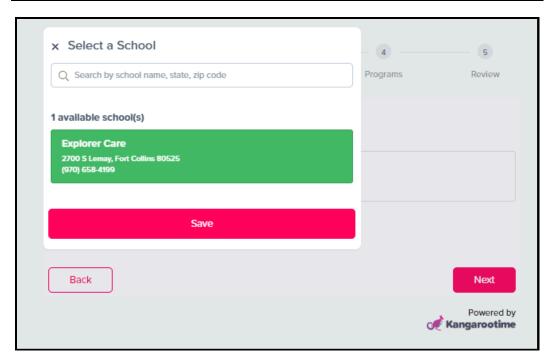

Step 2: Fill in the email address associated with your current Kangarootime Account. All students and families who attended during the 2024-25 school year should have a Kangarootime account set up. Click Log In.

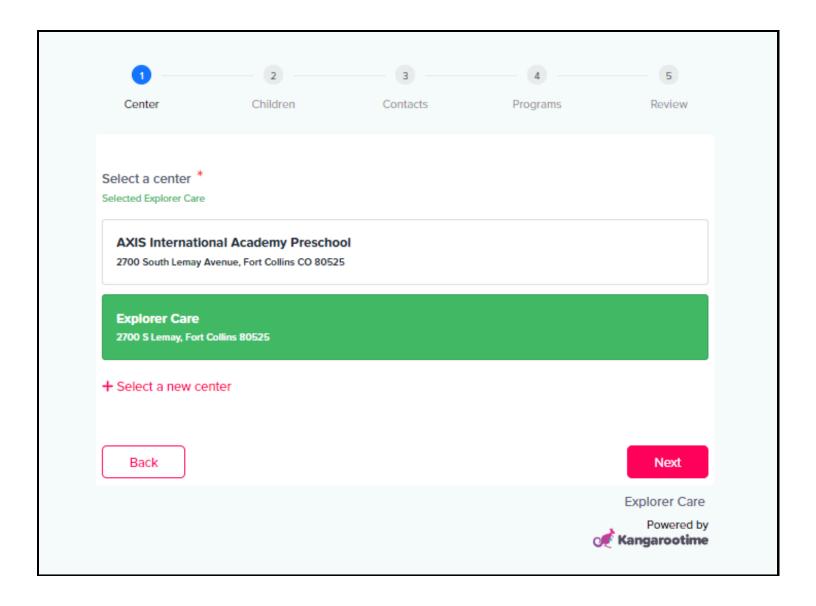

If you have questions about a current account please email info@axiscolorado.org.

Step 3: You will be directed to the screen below. Click on "Select a New Center" and select Explorer Care. Click Save.

			Q	Powered by Kangarootime

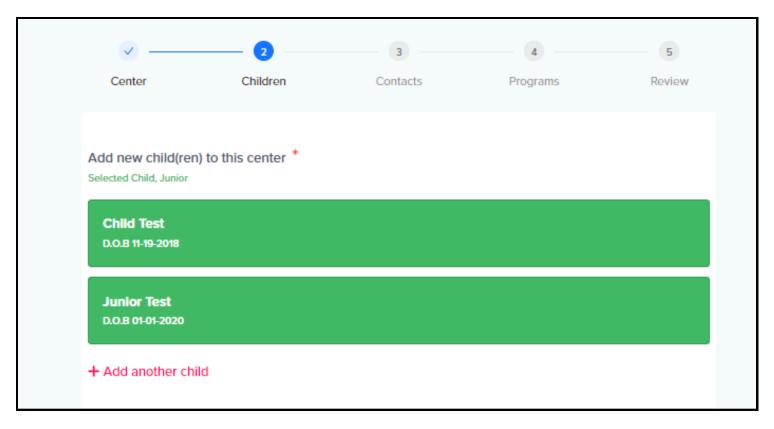

Step 4: Make sure that ONLY Explorer Care is highlighted in Green. Then click Next.

Step 5: Select the students who you want to register for Explorer Care.

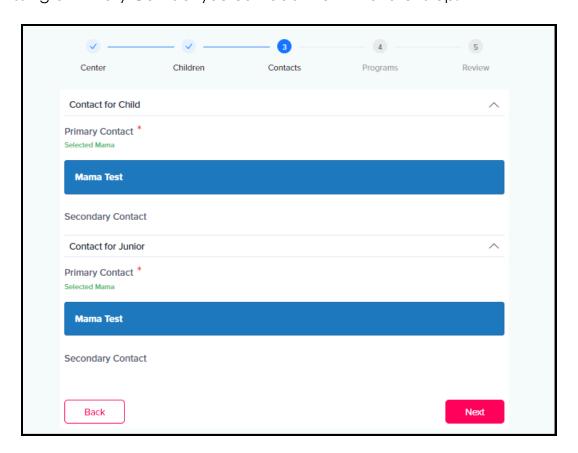

You may see older siblings who have graduated from AXIS on this screen. You can unselect them if they are not attending AXIS this year.

If you have a younger sibling joining AXIS for the first time in 2024-25 who is not populating on this screen, you can click **Add Another Child**.

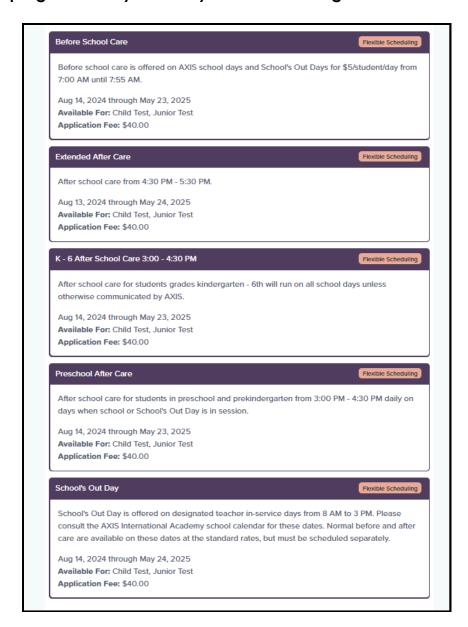

Step 6: Confirm Primary Contacts (parents/guardians) for all students selected in the application.

If you are missing a Primary Contact you can add them in a later step.

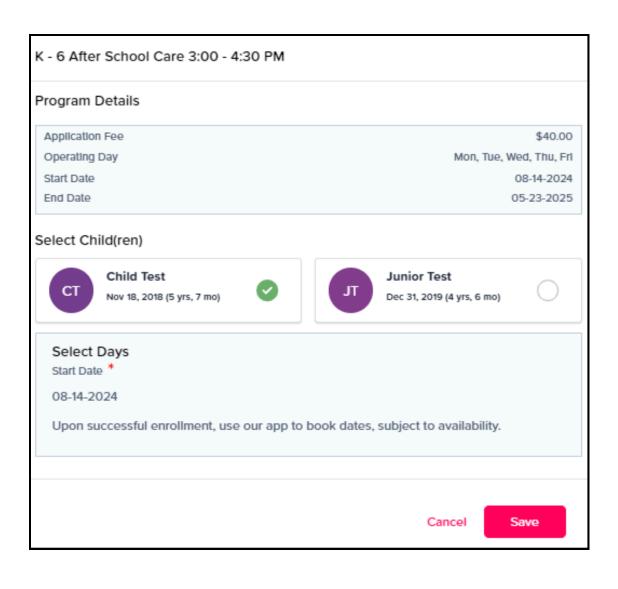

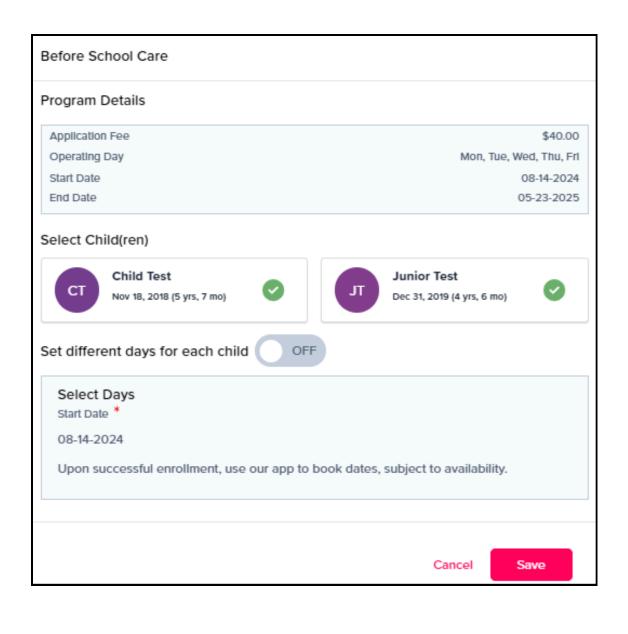

Step 7: Select ANY programs that you think you will use during the 2024-25 school year.

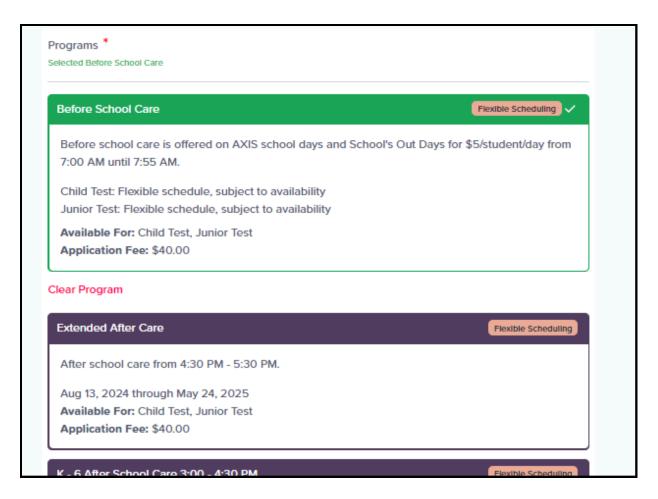

CAUTION: Please err on the side of everything you might possibly use. It is difficult to go back and add more programs later. The \$40 family registration fee is a flat fee, so adding more programs will not increase your fee. It is better to have the ability to schedule care than not.

DOUBLE CAUTION: Be sure that when registering for After Care from 3:00 - 4:30 PM you either choose K - 6 After Care OR Preschool After Care. For the first hour and a half after school care is split between two age groups. Make sure the appropriate child is selected for the appropriate age group based on their grade level.

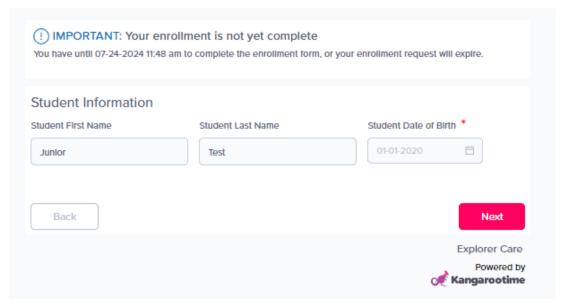

Step 8: Click next and review your program selections for each student. (Again, we encourage you to register for anything you might possibly use).

Step 9: Review student information, update primary and emergency contacts, and sign off on childcare disclosures and agreements.

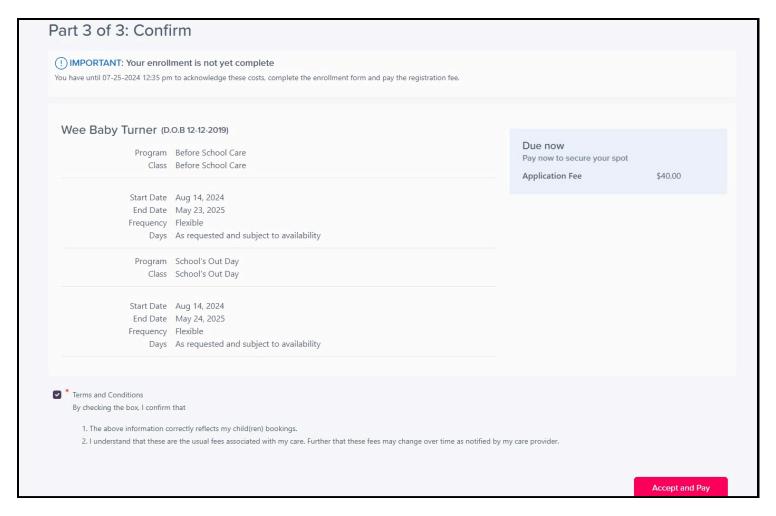

This information lives separately from Infinite Campus, so you may need to duplicate some updates. This database has to work with childcare licensing which is separate from state school reporting. (We know it's a pain to duplicate efforts).

These forms also contain releases and disclosures that are specific to childcare and childcare licensing in Colorado, so please read carefully as you move through this part of the registration.

contacted first for billing a	rity and permission over the account including drop off/pick up, and will be and emergency purposes

Step 10: Review the registration information, check the Terms and Conditions box, and click accept and pay to move on to pay the annual \$40 registration fee.

What's Next?

- You will receive an automated email from Kangarootime when you registration comes through, and another when AXIS staff has manually processed the application.
- Once you receive the second email you should be able to go in and start scheduling Before and After Care for the months of August and September.
- If you need help with scheduling please see the AXIS KT Connect webpage here:
 https://www.axiscolorado.org/apps/pages/KTConnectDownload
- You can also watch a video tutorial of this registration here:
- https://www.axiscolorado.org/apps/video/watch.jsp?v=375045
